LASALLE	WEST FELICIANA
LIVINGSTON	WINN
MOREHOUSE	

The Local Emergency Planning Committees on the above list have officially designated the State Police Right-to-Know Unit as the repository of their Tier Two filings by signing the State Repository Agreement. This designation allows the LEPC to accept reports filed into the state database as having been filed with them since they have electronic internet access to the information. Therefore, reporting facilities in the listed parishes are no longer required to send paper submittals of their Tier Two chemical inventory data to the LEPC.
